

SDRplay Conflict Minerals Policy

We're committed to ensuring that we are not sourcing the minerals tin, tantalum, tungsten and gold that fund armed groups in the Democratic Republic of Congo and adjoining countries. We do not ban the sourcing of minerals from this region because such a policy may harm legitimate miners.

We're taking steps across our supply chain to confirm our sourcing does not fund armed groups in the DRC and adjoining countries. As part of this program, we continue to carry out a reasonable country of origin inquiry on the products we manufacture.

We expect suppliers to have a policy in place and implement a system to trace the origin of tin, tantalum, tungsten, and gold supplied to the Company, following the template developed by the Responsible Minerals Initiative.
